Einstein's Brain Teaser

(provided by www.MarkSwist.com)

One of my favorite thinkers of all time, Albert Einstein, reportedly created a brain teaser and stated that 98% of the population of people in the world cannot figure it out. When doing this brain teaser / challenge, time yourself to see how fast it takes you to figure it out if you can.

The Brain Teaser

There are five houses in a row in different colors. In each house lives a person with a different nationality. The five owners drink a different drink, smoke a different brand of cigar and keep a different pet. No owner has the same pet, smokes the same brand of cigar or drinks the same drink as another owner.

The question is— **Who owns the fish?**
